

# Noro Wave Scarf Pattern

by Allison Van Zandt, [www.simplysockyarn.com](http://www.simplysockyarn.com)

This pattern was inspired by the many available feather and fan-type stitch patterns available on the web and in print. As none of them were exactly what I wanted, I simply incorporated parts of each that I liked into this simple scarf pattern. I find that it shows of the color changes of Noro and JojoLand quite well. It also looks nice on both the right and wrong sides.

**Project Requirements:** 2 balls of Noro Silk Garden Sock (328 yards per ball) or similar yarn, and a US 5 circular needle.

For this project I used Noro Silk Garden Sock yarn color 245 and 24” Addi Turbo Lace Circular needles in US 5.

Cast on 48 stitches.

Knit 2 rows.

Follow the wave pattern until your scarf is the desired length.

Knit 2 rows.

Cast off. Weave in ends. Wash and block to enhance wave pattern.

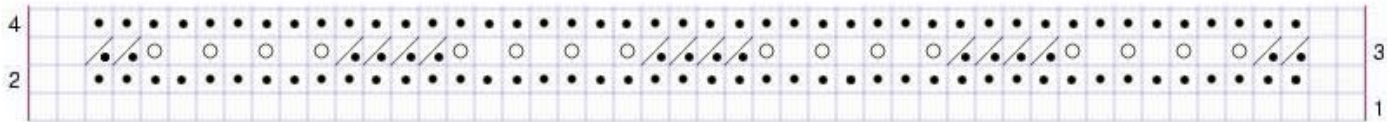

## Wave Pattern:

**Row 1:** Knit all stitches

**Rows 2 & 4:** k2, purl to last 2 stitches, k2

**Row 3:** k2, \*p2tog twice, YO (K1, YO) 3 times, p2tog twice\*  
repeat from \* 3 more times, k2

This pattern is based on an 11 stitch “wave” pattern (repeated 4 times), sandwiched between 2 knit stitches at the beginning and end. If you want to use one ball of yarn instead of two, consider knitting a narrower scarf by casting on only 37 stitches and repeating the 11-stitch wave pattern in Row 3 only three times. \* Red type above is a corrected error

Assistance in charting this pattern came from Lauren at:
